MAYOR OF CHARLOTTE

PREFACE

CHARLOTTE--the City of Electrical Energy

THE BRIGHT SPOT ON THE MAP

Population within City limits March, 1909

45,455

IN PRESENTING our 1909 Volume of the Charlotte Directory to our patrons, it is again our pleasure to state that CHARLOTTE continues its growth; in fact, so substantial that we again call attention to the prophecy that CHARLOTTE will have a population of 100,000 in 1916.

The present volume contains 13,860 names, which in this community indicates a population of 45,455 divided thus: Whites, 29,955; Colored, 15,500; an increase of about 10% within the year, which is at least a remarkable showing, even for energetic Charlotte.

In our work of preparation evidences of the past years' growth was apparent on all sides; over \$1,000,000 was invested in Charlotte during the past year. Besides a large increase in the number of residences there has been built a twelve-story office building, a handsome Y. M. C. A. with sleeping room accommodation for one hundred young men, a new hotel, a first-class Sanitorium, three new churches, two blocks of store buildings, and in some cases additions to factories. The Southern Railway has about completed an enlargement of the freight yards at a cost of nearly one-half million of dollars.

Twenty-eight blocks of bitulithic pavement have been laid, costing over \$100,000, and over \$40,000 spent in water and sewer main extensions. Three-fourths of a mile of Tarvia pavement was also laid during the year. The number of telephones in use increased in the past year from 2,345 to 2,675. The increasing postal receipts now reach \$120,000.

About 200 miles of graded macadamized road now accommodates the beautiful agricultural country around Charlotte.

The scarcity of vacant houses to rent was never more apparent than now.

The recent financial depression seems not to have been felt in Charlotte, and building and improvements have gone steadily on.

The banks of Charlotte gave evidence of their struggle and superior management by issuing no scrip during the panic, there being but three other cities in the South which did not resort to this extremity.

The banking assets have reached a total of nearly \$10,000,000.

Four building and loan associations, with authorized capital of \$8,000,000, makes Charlotte the first building and loan city in the South, and of the entire country considered proportionately with the population.

The street railway has extended its lines so that now the city is supplied by twenty-five miles of track, and operates twenty-five cars continuously.

The various industrial plants number in all 135. There are about 12,000 wage earners in Charlotte, to whom is paid in salaries, \$3,000,000 annually.

Cotton provides most of the raw material, and a large part of the industrial life; and Charlotte is the recognized centre of Southern Cotton Mill industry. Seventy-five per cent. of the cotton mills of the South are within 100 miles of Charlotte, and include 370 cotton mills operating 4,765,000 spindles 111,300 looms, and represent a capital of over \$140,000,000.

Within sixty miles of Charlotte exists water power which will develop 1,000,000 electrical horse power. An immense volume of this is already turning hundreds of wheels in the Piedmont section.

814537

One hundred trained nurses live in Charlotte, most of whom are in the hospitals which are patronized by patients from all over the State, desiring first-class medical attention.

A well governed city, well drained, lighted and paved; supplied with plenty of good water, fine system of sewers, attractive public buildings, three daily newspapers, three colleges, three preparatory schools, sixteen graded school buildings, two libraries, five hospitals, fine, new theatre, auditorium building, with seating capacity of 4,500, new \$125,000 Y. M. C. A. Building, the best police and fire protection. The normal tone of the community is high, there being over sixty churches, which are well filled on the Sabbath day, make Charlotte a city of exceptional advantages, both to the home seeker as well as the investor.

In closing we beg to call attention to the matter of support that should be given to the Directory that represents your city, based on the fact whether or not it is deserving. If, in your opinion your Directory service is all that could be asked, you should give it the encouragement that good service deserves, for a Directory is as absolutely necessary to a community as any other public utility, and every business that can afford it should be represented in its advertising department, for there is not an intelligent business man in a city but what will admit that a Directory well patronized in the way of advertising is a good investment for a city in exhibiting its resources, as well as exploiting the individual business.

In this event the price of a Directory can be kept at a reasonable figure, and in no other way for the cost of production in a growing community is much greater than the increase in subscriptions, and were it not for the advertisers it would not be possible to place such a Directory as this in the hands of subscribers for less than double its present subscription price.

It is our purpose to continue the improvement of our service, wherever possible, making each successive issue an improvement over its predecessor, and on these grounds, and based on the service that we have been rendering for some years past, we ask that you consider us when making your advertising appropriations for next year, believing as we do that the Charlotte Directory service is second to none in this country, and warrants your support.

Charlotte is the logical commercial centre of the two Carolinas and is a distributing point for both.

With thanks to the general public for assistance during its preparation, and to our patrons for support we are respectfully,

THE WALSH DIRECTORY CO.,

Charlotte, N. C., May 1st, 1909.

Signatures with a lead pencil are good in law.

The acts of one partner binds the others.

Each individual in a partnership is responsible for all the debts of the firm, except in the case of a special partnership.

The word "limited" in connection with firm names indicates a limitation of responsibility for each member.

An agreement without consideration of value is void.

"Value received" should be written in a note, but it is not necessary. When not written, it is presumed by law or may be shown by proof.

A consideration is not sufficient in law if it is illegal in its nature.

An endorser of a note is exempt from liability if not served with a notice of its dishonor within 24 hours of its non-payment.

If a letter containing notice of protest or non-payment be put into the Post Office, any miscarriage does not affect the party giving notice.

Notice of protest may be sent either to the place of business or residence of the party notified.

A receipt for money is not legally conclusive.

THE NATIONAL BANKRUPTCY LAW.

The Federal Bankruptcy Act became operative throughout the United States August 1st, 1898.

It provides for the appointment of referees and trustees to administer the estate of the bankrupt. Each referee is appointed by a Court of bankruptcy for two years, and has many judicial powers. The Courts of bankruptcy include the District Courts of the United States and Territories, the Supreme Court of the District of Columbia, and the United States Court of the Indian Territory and Alaska. The trustees may be one or three, and are appointed by the creditors, and co-operate with the referee in the administration of the estate.

Any person who owes debts, except a corporation, shall be entitled to the benefits of the act as a voluntary bankrupt.

Any natural person, except a wage-earner, or a person engaged chiefly in farming or tillage of the soil, any unincorporated company and any corporation engaged principally in manufacturing, trading, printing, publishing, or mercantile pursuits, owing debts to the amount of \$1,000 or over may be adjudged an involuntary bankrupt upon default or an impartial trial. Private bankers, but not national banks, or banks incorporated under State or Territorial laws, may be adjudged involuntary bankrupts. A wage-earner is defined to be a person who does not earn more than \$1,500 a year,

A petition to make a person or corporation an involuntary bankrupt must be signed by three creditors whose claims aggregate \$500.

A discharge in bankruptcy releases from all provable debts, except judgments in actions for fraud or obtaining property by false pretense or false representations, or for wilful and malicious injuries to the person or property of another, or debts not duly scheduled in time for proof and allowance, and debts created through embezzlement, misappropriation or defalcation by the bankrupt while acting as an officer, or in a judicial capacity.

Application for discharge must be made after one month, and with the next twelve months subsequent to being adjudged a bankrupt. In certain cases the time may be extended. Instead of submitting his case to a referee the intending bankrupt may offer terms of composition to his creditors, after he shall have been examined in open court, or at a meeting of his creditors, and filed in Court the schedule of property and list of creditors required to be filed by bankrupts. The Judge may then confirm or disapprove the composition at his own discretion. Compositions, however, may be set aside upon proper application, and discharges revoked for fraud.

ELIZABETH COLLEGE (Not Denominational)

IS constantly rising higher in the estimation of the people of North Carolina and other States as an institution of learning. The high Curriculum prescribed and adhered to in every department gives it a place in the front rank of high grade Colleges for young women, and the Music Department has done much to win for it the high place it holds in the Educational World.—*Editor Charlotte Observer.*

Pine Forest Inn

Season 1909-'10  Open December
to May
Summerville, S. C.

The Pine Forest Inn Company take pleasure in announcing to former patrons and those who contemplate a sojourn in the South during the Winter 1909-10 that the Inn will open for the coming season with many improvements to the hotel and property that cannot fail to add to the comfort of its guests. The new additions, containing several suites of rooms with bath, steam heat and open fireplaces, are furnished in the luxurious style of other portions of the Inn. An extension enlarges the dining room to double its former size, and provides several smaller dining rooms and a commodious room for balls and entertainments. The kitchen facilities are also improved.

The Former Excellent Golf Links have been extended to an eighteen-hole course. Artificial bunkers have been added, and the hazards difficult enough to be interesting. The turf is the finest in the South. There is a good club-house situated at the first tree, commanding a view of the entire course. The links will be in charge of a professional instructor, and tournaments will be a feature during the season. The climate of Summerville will admit of playing any day in Winter. A fine boulevard leads from the Inn through the park and past the tea and floral gardens of Dr. Charles U. Shepard to the club-house, less than a mile distant.

The Pine Forest Inn Hunting Grounds containing two thousand acres, with its Colonial Club House, and the variety of game with which the preserves are stocked, should be a great attraction for all fond of hunting, etc.

The Owners of the Inn have spared no expense in the equipment of the hotel and providing for the comfort and amusement of guests, and the large patronage enjoyed by the house in past seasons is the best evidence of its popularity. Situated in the middle South, in the dry, fragrant air of the pines, and easy of access from all points, the Pine Forest Inn offers an ideal climate and many advantages not found at other Southern resorts.

PINE FOREST INN COMPANY, Summerville, S. C.

The superior advantages offered in your Conservatory of Music and the High-Grade College Course induced me to patronize

ELIZABETH COLLEGE (Not Denominational)

IS constantly rising higher in the estimation of the people of North Carolina and other States as an institution of learning. The high Curriculum prescribed and adhered to in every department gives it a place in the front rank of high grade Colleges for young women, and the Music Department has done much to win for it the high place it holds in the Educational World.—*Editor Charlotte Observer.*

ELIZABETH COLLEGE (Not Denominational)

IS constantly rising higher in the estimation of the people of North Carolina and other States as an institution of learning. The high Curriculum prescribed and adhered to in every department gives it a place in the front rank of high grade Colleges for young women, and the Music Department has done much to win for it the high place it holds in the Educational World.—*Editor Charlotte Observer.*

It is constantly rising higher in the estimation of the people of North Carolina and other States as an institution of learning. The high Curriculum prescribed and adhered to in every department gives it a place in the front rank of high grade Colleges for young women, and the Music Department has done much to win for it the high place it holds in the Educational World.—Editor Charlotte Observer.
